Boca Raton, FL 33433

13 September 2019

Dear Ms. Lasker,

Greetings from Bethlehem Arab Society for Rehabilitation (BASR),

Thank you for your generous donation to BASR in 2018. We have received 33 wheelchairs through the Miracle Wheelchair Mission that were provided to different Children from the Palestinian community through our Community Based Rehabilitation (CBR) program.

We work hard to promote inclusion for people with disabilities, and by providing assistive devices; we can ensure that children can be included with their peers in different schools and facilities.

BASR, is grateful for the Forster foundation, and wishes to be part of its second mission to support people with disabilities. Accordingly, please find below a table that describes the needs of BASR, and the needs for the community members who would require assistance per year, based on the brochures that you shared with us:

No.	Item	BASR needs	Community needs	Description
1	Kaye Walker	3 for the PT department	30 walkers for children	PT: Physiotherapy
2	Standing Frame	2 for PT and 2 for OT departments		OT: Occupational therapy

3	Wheelchairs	10 for OT department with different sizes	15 Wheelchairs for Children 60 Wheelchairs for adults	Adult wheelchairs: 10: 14 inch 10: 16 inch 10: 18 inch 10: 20 inch 20: recliner wheelchairs
	<i>Positioning Devices for wheelchairs</i>			<i>If possible for future missions to support positioning devices helpful for coma and quadriplegia patients</i>
4	iPads	2 for Vision Rehabilitation Department	50 iPads for students with low vision	The iPads will be used to support students with low vision to be able to read, magnify, and utilize assistive applications that help them study and facilitate their learning process.
5	iPads (that can have Grid 3 program installed)	2 for Speech Rehabilitation Department	30 for children and adults who have the language understanding but can't communicate	

Should you have any clarifications, please do not hesitate to contact me. I can also provide you with lists of names of former children that were helped through the previous mission if needed.

Thanks again for your support to people with disabilities, and for your interest to work with BASR.

Sincerely

  
Raneen Al-Arja

Director of Programme Development
